County Comprehensive Annual Financial Report Status

Pursuant to Code of Virginia § 15.2-2511, all Virginia localities that have failed to issue their audited financial statements for the previous fiscal year by the statutory deadline of December 15th are required to promptly inform the governing body and public of the delay. As of December 15, 2020, the County of Accomack's Comprehensive Annual Financial Report (CAFR) for the fiscal year ending June 30, 2020 is pending. The County expects to complete and issue the report by February 15, 2021. There are several reasons for the delay however the most significant is an other governmental entity who has not provided its financial information required to be incorporated into the County's CAFR (called component unit) has yet to supply the County and its auditors with their required information. County staff will continue to work diligently to release the report.
